• Amman, Jordan

Summary

I am a dedicated and skilled software developer with a bachelor's from Jordanian university of science and technology in computer science. Fluent in Python and proficient in multiple programming languages, I possess extensive experience in various facets of software development. Currently honing my expertise as a Full Stack App Developer and AI Engineering. I am adept at handling projects from conception to implementation, serving as a Projects Coordinator & Implementer. Additionally, my role extends to Solutions Architect, where I design robust and scalable solutions tailored to meet clients' needs.
